东莞九音科技有限公司

DONGGUAN JIUYIN TECHNOLOGY CO., LTD

关于九音

东莞九音科技有限公司是一家专注于音频创新与精密检测设备的技术型企业，总部位于中国先进制造与科技创新高地——广东省东莞市新硅谷高新技术产业园。公司依托东莞九音科技有限公司、东莞博洋仪器有限公司和郑州博洋仪器仪表有限公司的研发与制造优势，构建起坚实的产业平台。

九音是全球首家发明并成功量产可在50米水深环境中正常工作的骨传导耳机厂商。截至目前，该产品仍是全球市场上唯一实现该级别防水性能的骨传导耳机。产品将先进的骨传导声学系统与专业级深水密封防护结构相结合，填补了深水音频技术的全球空白。自发布以来，已获得国际潜水俱乐部、专业运动品牌及高端用户的高度关注，被广泛认为是骨传导技术发展史上的重要里程碑。

公司已建立起从IP68级专业潜水系列到超轻量日常运动款的完整骨传导耳机产品矩阵，覆盖多场景、多层级市场需求。产品采用人体工学设计与一体化轻量结构，整机重量低至23克，集成多项核心专利功能，包括夜跑安全灯、人体工学耳挂与颈挂结构、以及低震动高保真声学系统，即使在复杂环境下亦能提供安全、沉浸的音频体验。

Company Profile

Dongguan Jiuyin Technology Co., Ltd. is a technology-oriented enterprise specializing in audio innovation and precision testing equipment. The company is headquartered in the New Silicon Valley Industrial Park, Dongguan City, Guangdong Province — a hub of advanced manufacturing and technological innovation in China.

Leveraging the strong R&D and manufacturing capabilities of Dongguan Jiuyin Technology Co., Ltd., Dongguan Boyang Instrument Co., Ltd., and Zhengzhou Boyang Instrument & Meter Co., Ltd., Jiuyin has built a solid industrial platform.

Jiuyin is the world's first company to invent and successfully mass-produce bone conduction headphones capable of operating normally at a depth of 50 meters underwater. To date, this product remains the only bone conduction headphone in the global market that achieves such a level of waterproof performance. Combining an advanced bone conduction acoustic system with a professional-grade deep-water sealing structure, it fills the global gap in deep-water audio technology. Since its debut, the product has attracted great attention from international diving clubs, professional sports brands, and high-end users, and is widely regarded as a milestone in the history of bone conduction technology.

The company has established a comprehensive product lineup of bone conduction headphones, ranging from IP68-rated professional diving series to ultra-lightweight models for daily sports, covering multi-scenario and multi-tier market needs. The products feature ergonomic design and an integrated lightweight structure, with a total weight as low as 23 grams, and integrate multiple patented innovations — including a night-running safety light, ergonomic ear and neck hooks, and a low-vibration high-fidelity acoustic transducer — delivering a safe and immersive audio experience even in demanding environments

NOS10 Series

Unleash the Power of Ultimate Waterproof Protection

With **50M Extreme Waterproof Certification**, this beast is built to conquer the elements—whether you're diving deep, swimming in open waters, running through the rain, or pushing limits in sweat-drenched workouts.

真正的硬核防水才配得上你的无畏探索

突破防水极限，挑战深海。具备专业级防水性能，无论是50米极限深潜、畅游大海、雨中奔跑，还是汗水淋漓的高强度训练，都能稳如泰山，音质澎湃不减。

TÜV Introduction

Issued by the renowned German organization TÜV (Technischer Überwachungsverein), this independent third-party certification represents the highest international standards of safety, quality, and reliability. As one of the world's most respected testing and certification bodies, TÜV has earned a strong global reputation through its rigorous testing procedures, state-of-the-art laboratories, and highly specialized technical teams. TÜV certification is more than just a certificate—it is proof of product excellence and a brand's commitment to responsibility.

本认证由德国知名机构 TÜV（德国技术监督协会）颁发，作为独立第三方认证，代表国际领先的安全、品质与可靠性标准。

作为全球备受推崇的检测与认证机构之一，TÜV 凭借严苛的检测流程、先进的实验室设备及专业的技术团队，在全球享有盛誉。

TÜV 认证不仅是一纸证书，更是产品卓越品质与品牌责任担当的有力证明。

振动系统·声学算法·系统架构

重新定义骨传导音质上限

VIBRATION SYSTEM · ACOUSTIC ALGORITHM · SYSTEM ARCHITECTURE —
REDEFINING BONE CONDUCTION AUDIO

- 低频更深沉有力
- 人声更真实自然
- 高频更清晰通透

REDEFINE THE SOUND LIMIT OF BONE CONDUCTION

DEEPER, MORE POWERFUL BASS
MORE AUTHENTIC AND NATURAL VOCALS
CLEARER, MORE TRANSPARENT TREBLE
