Beyond Massage, Born for Pain Relief

Shenzhen Centurylux Technology Co., Ltd

- 1. About Us
- 2. Why Choose Us?
- 3. How Do We Ensure Quality? (15 Steps)
- 4. Marketing

1. About Us

1.About Centurylux: Centurylux is a BSCI- and ISO9001-certified manufacturer specializing in massage and wellness equipment with 13 years of industry experience. As a core supplier to major retailers such as Amazon and Aldi, we are committed to providing customers with high-quality products and services.

2. About products: We have two experienced R&D teams, launching 20-30 new products annually. Currently using AI to empower product development, we can make 20-30 new product designs monthly for our customers to choose from, helping them expand their market share. We offer comprehensive OEM and ODM support to ensure our products meet their unique needs.

3. Certificate and Factory area: All products are certified with CE, ROHS, FCC, UKCA, PSE, and KC. Our factory occupies 12,000 square meters in Dongguan, with two branch factories in Shenzhen (3,000 square meters) and Yongkang (3,000 square meters). With 200 employees and five production lines, we have a daily production capacity of 10,000 to 20,000 units.

2. Why Choose Us

Core Strength

"13 years of expertise in exporting massage devices, trusted by 500+ global brands with 90% reorder rate — empowering our clients to build high-repurchase, low-return, and profitable bestsellers."

13+

Founded in 2012, with 13 years history

12000+

Factory area up to 12000+

\$1,800,000+

Sales in 2024s

500+

Served 500+ brands worldwide

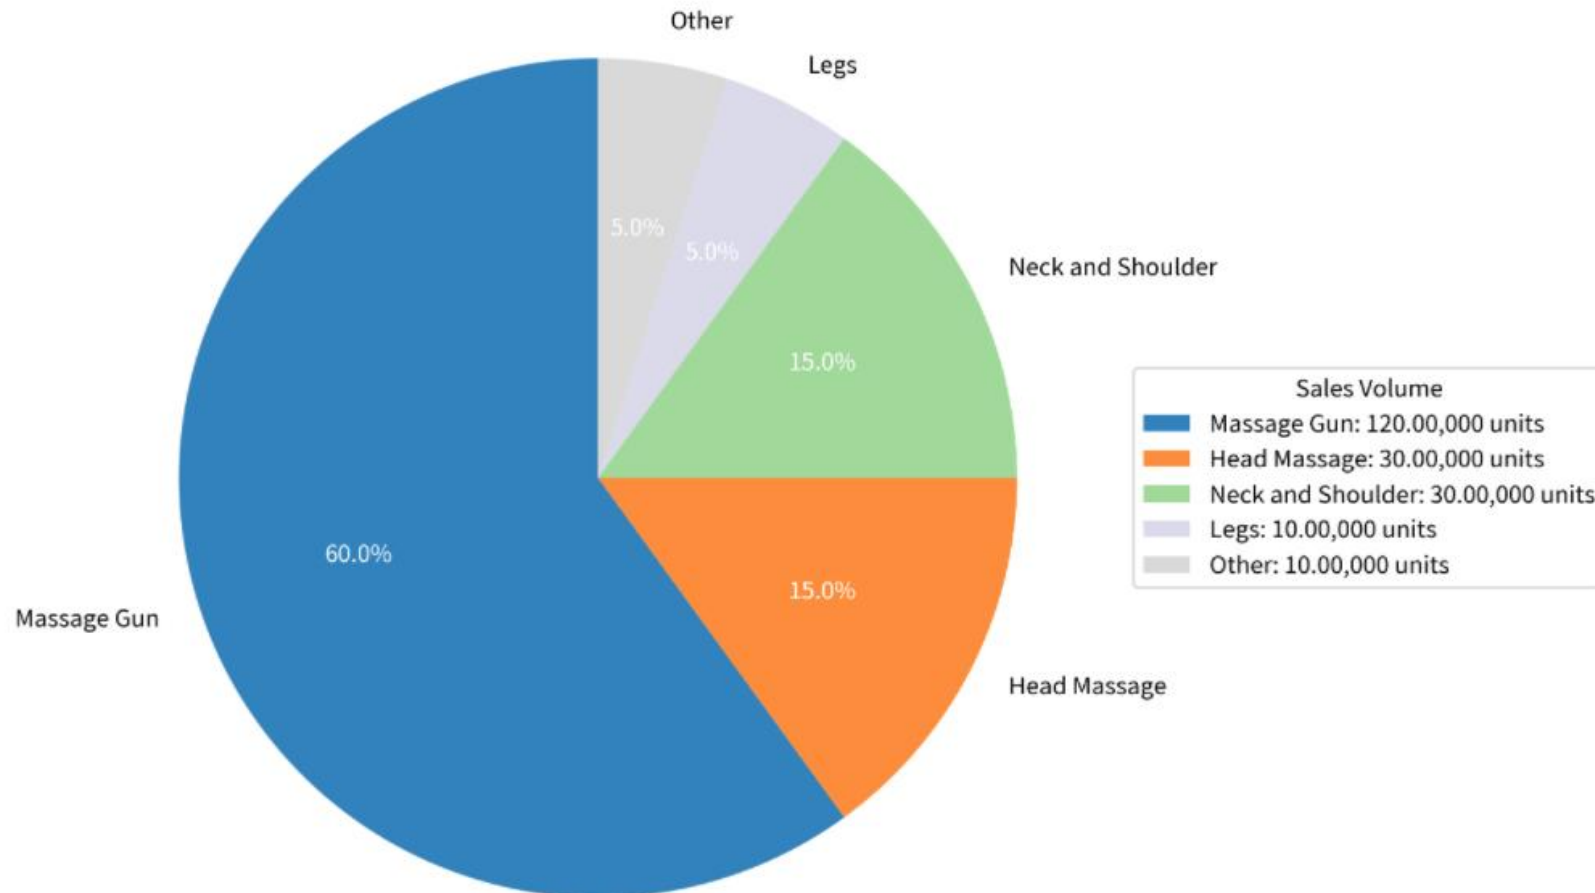

90+

Annual customers reorder rate reach 90%

60+

Hold over 60 patents

Massage Device Sales Distribution (Total: 2000,000 units)

- **Massage Gun dominates the market with 60% share, representing 1,200,000 units**
- **Head Massage devices account for 15% or 300,000 units**
- **Neck and Shoulder massagers also represent 15% or 300,000 units**
- **Legs massagers make up 5% or 100,000 units**
- **Other categories account for the remaining 5% or 100,000 units**

Certificate: ISO9001, BSCI, CE, ROHS, FCC, KC

Customer review

3. How Do We Ensure Quality?

The manufacturing process has four core steps:

1. IQC Inspection

Casing Inspection - Dimensions and Appearance

Motor Inspection - Speed

Battery Inspection - Charge and Discharge Capacity (Randomly sampled, proportional to the number of units)

PCB Inspection - Functional Testing and Appearance Testing for Solder Bonding

2. First Article & Mass Production (During the production process, IPQC inspections are conducted and tested according to finished product standards. If any issues are found, production will be stopped to correct the anomaly: 1. Material issues 2. Manufacturing process issues)

3. Aging Testing

4. Packaging

Confirm SKU configuration

Confirm packaging materials (box, instruction manual, inner tray, charging cable, etc.)

Verify the appearance of the individual units to check for any defects (screen printing logo and external damage)

How Do We Ensure Quality?(15 steps)

1. IQC - Incoming Quality Control: After all raw materials arrive at our factory, our full-time quality inspectors will conduct random inspections according to AQL standards to ensure that each material is free of defects before it can be put into production.

3. Semi-finished Product Assembly:

- 1) Assembly of core components:** including the motor, battery, PCB, and connecting rod.
- 2) Preliminary Functional Testing:** Checking for proper function after assembly, such as gear shifting and vibration.

4. Online Functional Testing (Inspection IPQC):

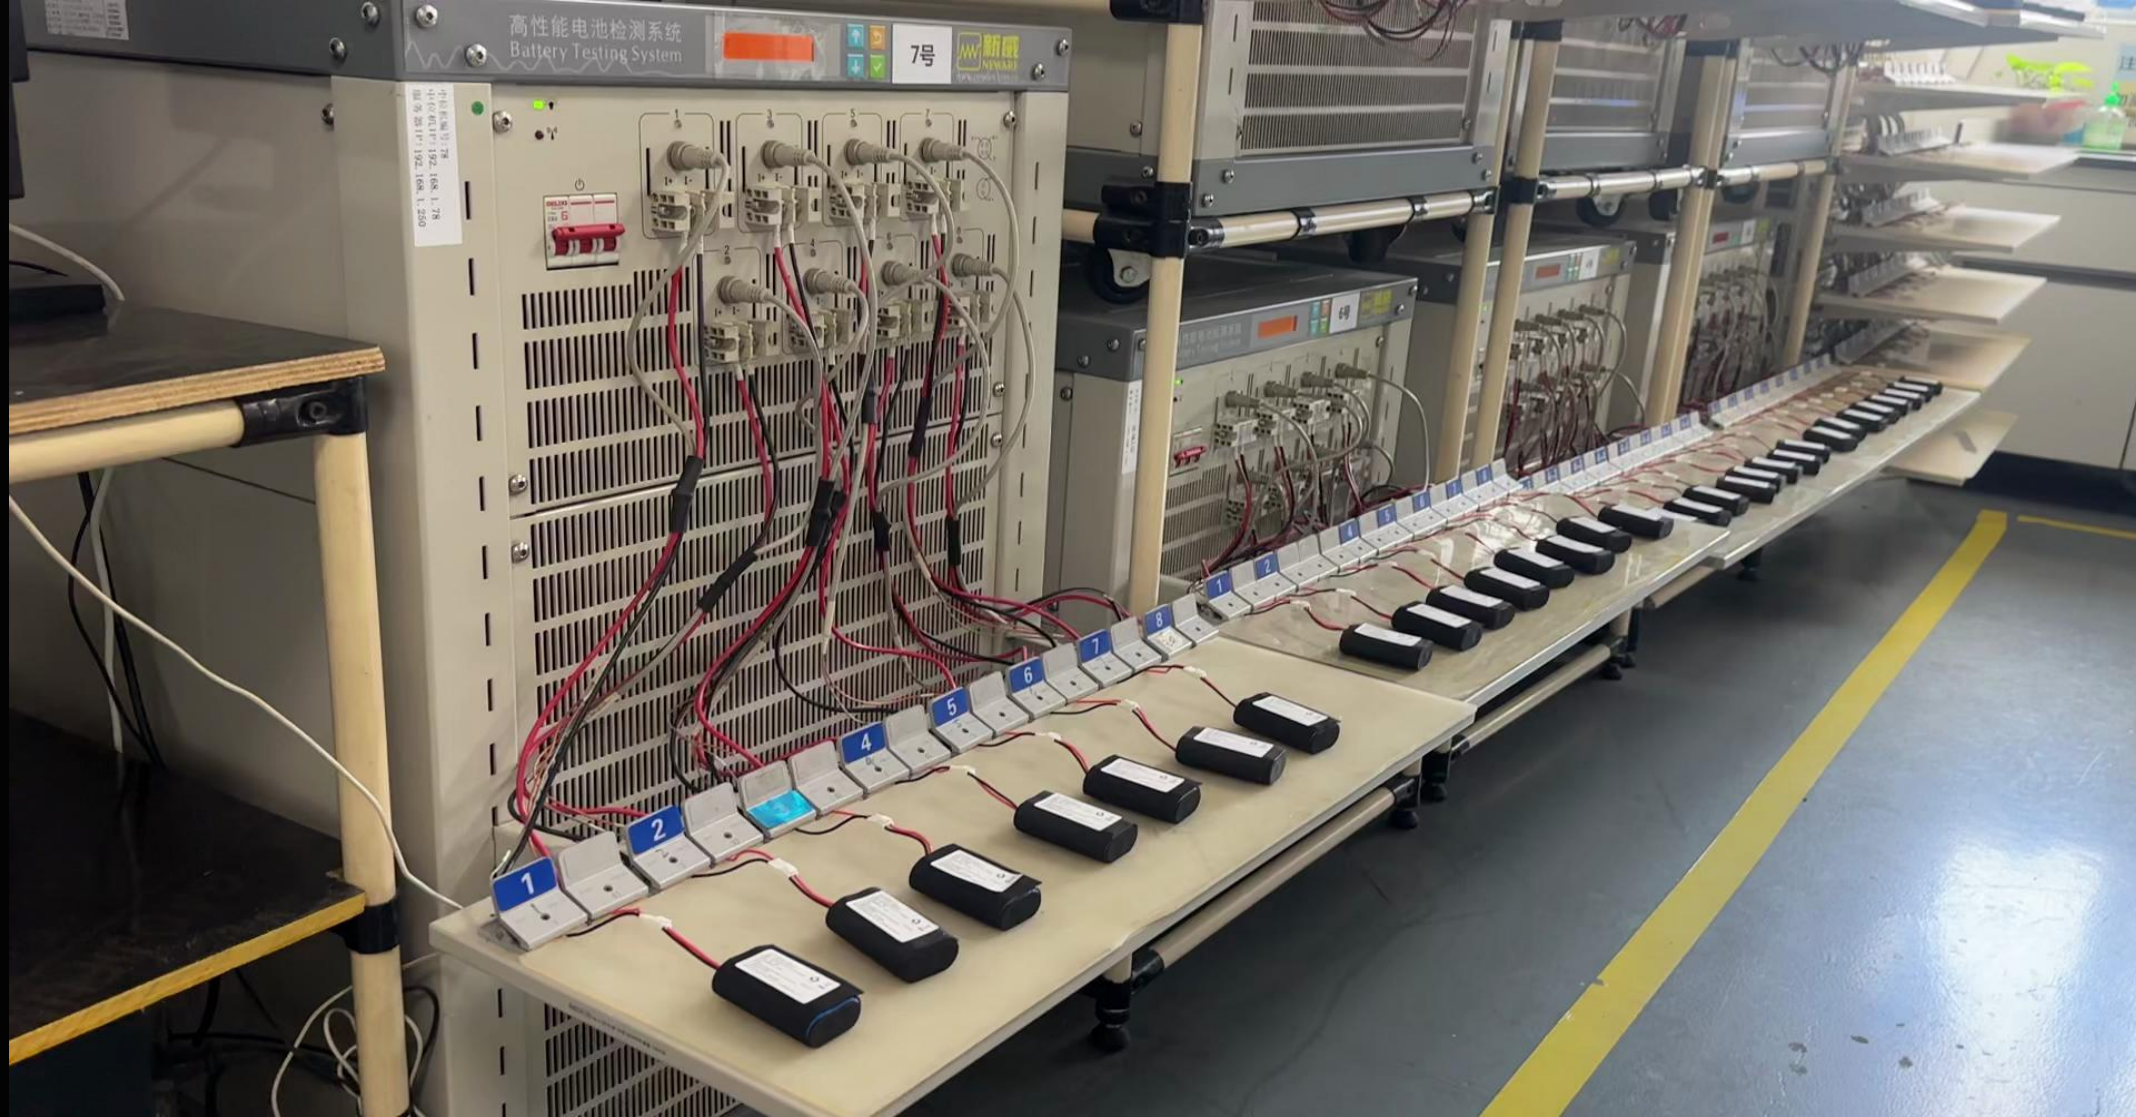

Perform functional testing of the assembled product to ensure there are no missing components or malfunctions.

5. Casing Assembly and Appearance Inspection:

- 1) After assembling the casing, inspect the surface finish for perfection (e.g., matte finish, no scratches).**
- 2) Perform an appearance inspection.**

6. Battery Aging Test:

The battery is a very important part, so we also do testing in our own factory.

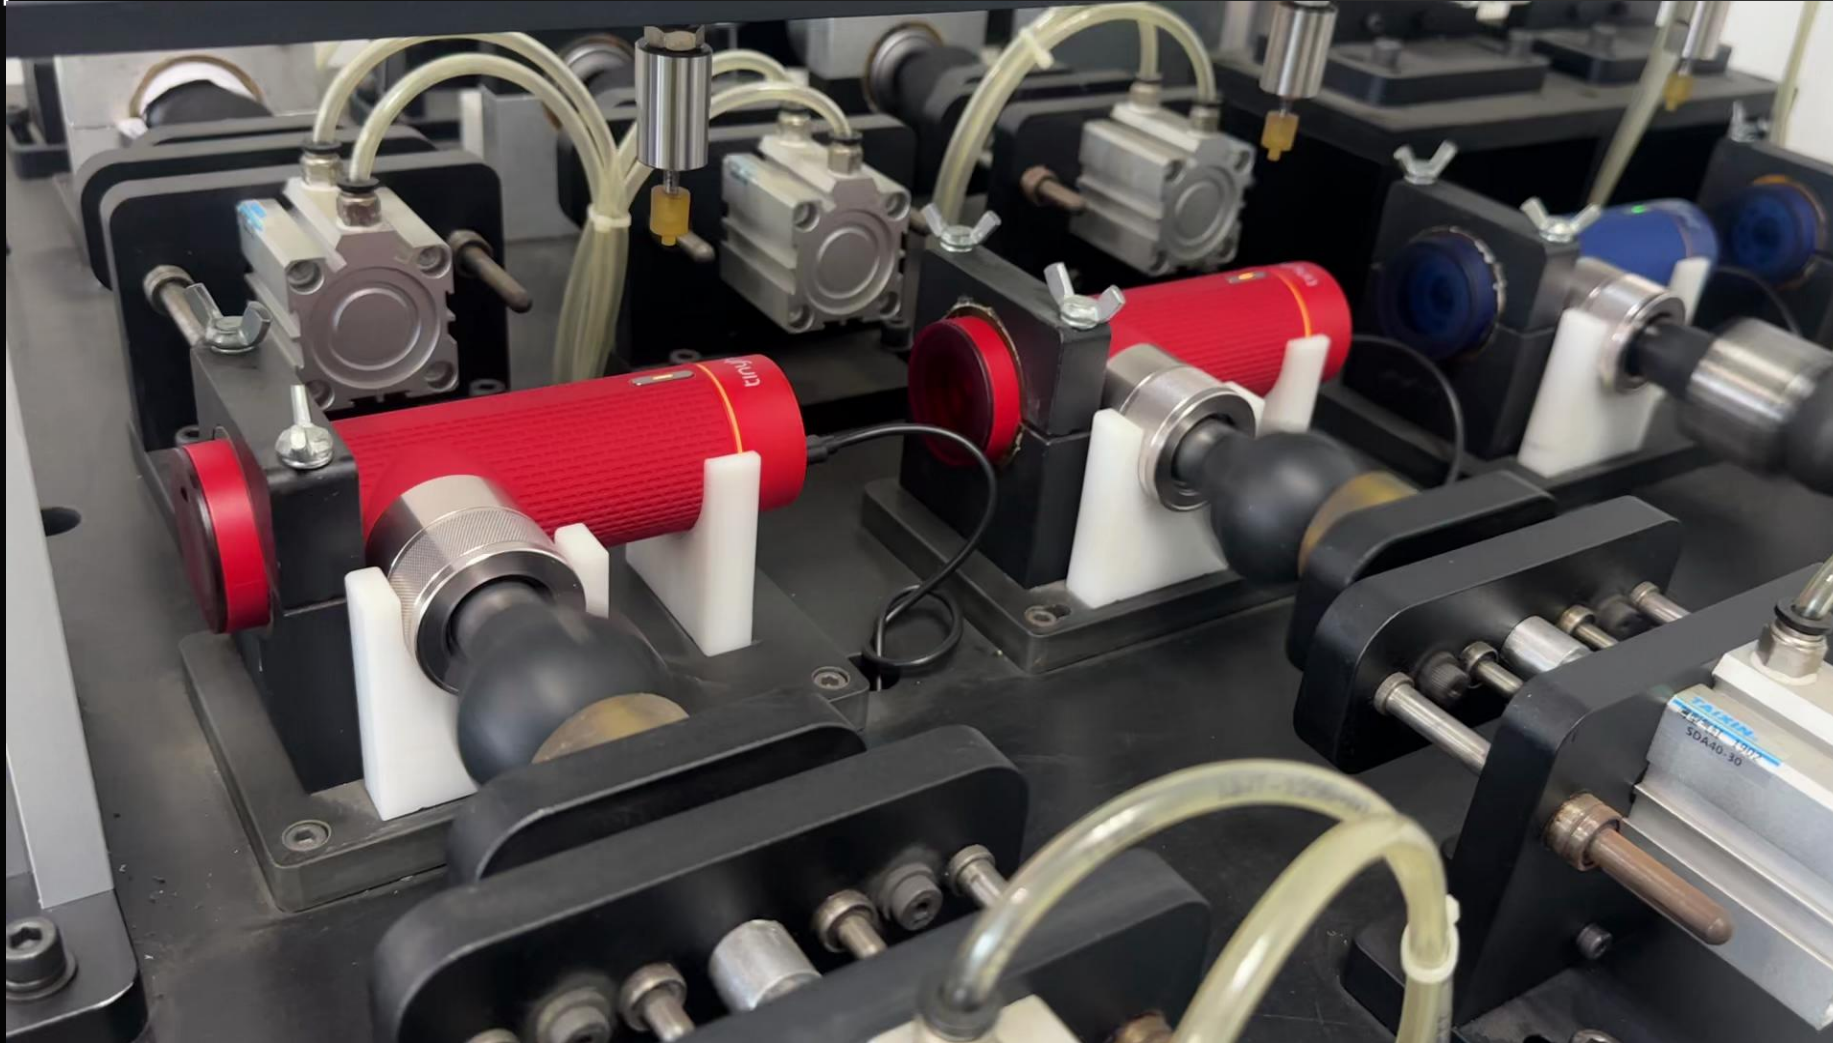

6. Aging Test:

After product assembly and before packaging, we conduct a 20-minute operation test and charge-discharge test on a dedicated aging rack. Products with defects will be repaired and retested for confirmation.

6. Product Aging Test:

After product assembly and before packaging, we conduct a 20-minute operation test and charge-discharge test on a dedicated aging rack. Products with defects will be repaired and retested for confirmation.

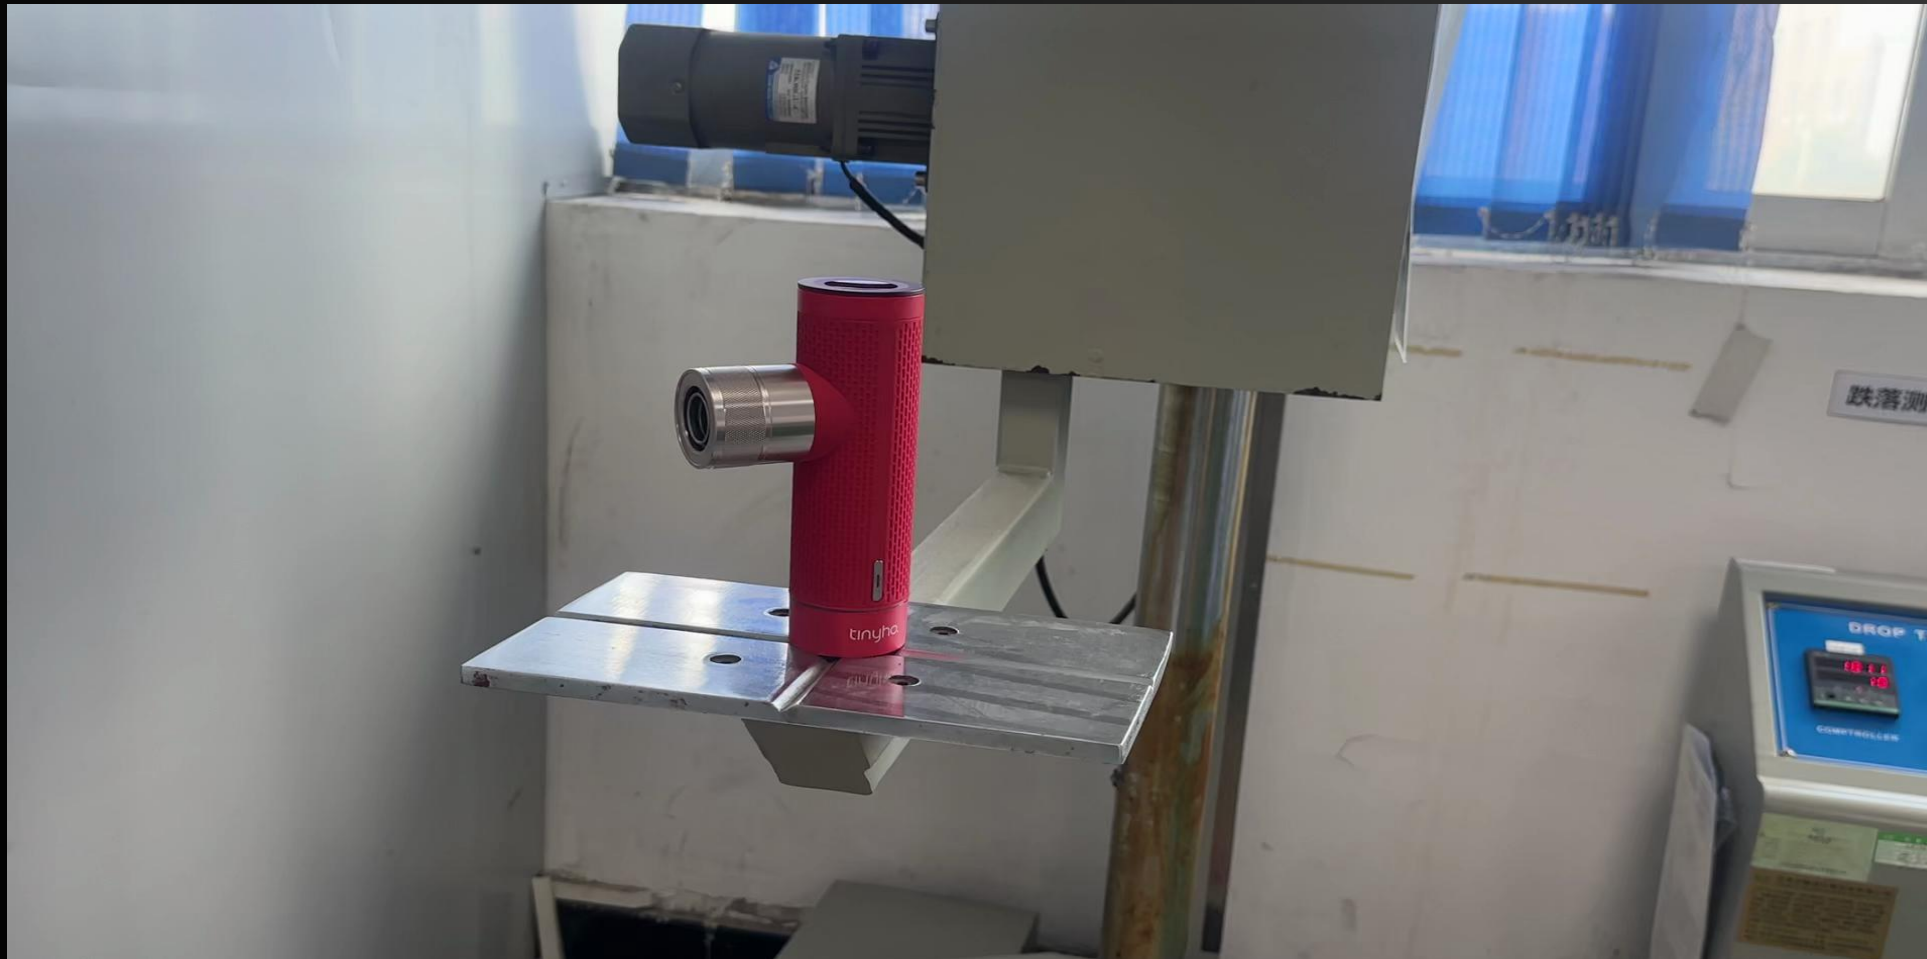

7. Noise Level Test

The noise level of the product at different gears is tested at a test distance of 30cm. The noise level must be stable and free of abnormal noise. If the noise value at the highest gear is ≤ 60 decibels, the test passes, and the lowest gear is between 45-50 decibels. If it exceeds this standard, rework and repair are required.。

8. Drop Test

Drop the device three times from a height of 1.2 meters at multiple angles (front, side, and bottom). After the drops, check whether the device is damaged and whether its functions are normal.

9. High and Low Temperature Test

10 degrees Celsius, +50 degrees Celsius.

10. Stroke Test

11. Impact Force Test/Strike Force Test

12. Product Functionality Inspection:

- 1) Check whether the product switches smoothly.
- 2) Charging Function Test: After plugging in the charger, check whether the charging indicator light is working properly.
- 3) Display Function Test: Check whether all gears and battery levels are displayed accurately.

13. Pre-Packaging Inspection:

- 1) Verify the product and accessories (such as the massage head, charger, storage bag, and instruction manual).
- 2) Check whether the packaging box is intact.
- 3) Packaging Compression Test: Simulate the shipping environment to check whether the packaging box deforms under pressure.

14. Finished Product Inspection:

- 1) Randomly inspect the function and appearance of the finished product.
- 2) Reconfirm that the contents of the package match the order requirements.

15. Shipping and Tracking:

- 1) Verify the order number, batch number, and logistics information.
- 2) Retain batch samples for after-sales tracking.

Our Partners & Netherlands

VirtuFit, a renowned retailer specializing in serving local offline gyms in the Netherlands, has partnered with us for over three years, launching seven different products. We are VirtuFit's sole supplier of massage guns in the Dutch market, a testament to their high level of trust and recognition in our product quality and service. We currently sell 70,000 units annually.

Our Partners & Australia

Australia's top online retailer Kogan: 5,000+ units sold — proving product-market fit and strong brand trust in the region.

The screenshot displays the Kogan.com website interface. At the top, the Kogan logo is on the left, followed by a search bar containing the text "Search over 10 million items". To the right of the search bar is a red magnifying glass icon. Further right is a heart icon labeled "Wish". Below the search bar is a navigation bar with several links: "Shop by Department" (with a dropdown arrow), "Recently Viewed" (with a dropdown arrow), "WIN \$100K" (with a lightning bolt icon), "Hot Deals" (with a flame icon), and "Clearance" (with a dollar sign icon). On the far right of this bar are two promotional banners: "Try for free FIRST" (with a checkmark icon) and "Deliver to VIC 3000".

The main content area features a breadcrumb trail: "HEALTH & BEAUTY / MASSAGE / MASSAGE GUNS". The central focus is the "Kogan Mini Handheld Massage Gun", a black T-shaped device with a spherical massage head. To the left of the product image are five feature icons: "30 SPEED LEVELS", "3HRS UP TO 3HRS BATTERY LIFE", "x8 MASSAGE HEADS", "ULTRALIGHT" (with a feather icon), and "QUIET OPERATION" (with a speaker icon). To the right of the product image, there is a price section. It starts with a purple badge saying "Our Lowest Price". Below this is the product name "Kogan Mini Handheld Massage Gun" and the brand "Kogan". A red badge indicates the "FIRST Member" price is "\$34.99", with the "Non-member" price of "\$39.99" shown below it. To the right of the price is a link to "Add to wishlist". Below the price is a red "Add to cart" button with a plus sign. Further down is a "Join FIRST" section with a "Learn More" link. It lists benefits: "Free Shipping", "Save \$5.00 on Non-Member Price", and "Earn 2.00% Rewards Credit". A red box at the bottom of this section says "Try 14 days of Kogan FIRST for free. Cancel anytime." At the bottom of the page, there is a "Deliver to VIC 3000" section with a "Fast Dispatch" icon and text.

Our Partners & Poland

"80,000+ units sold on Allegro. No.1 brand ALPHA ranked top for 3 years. Trusted by top sellers like BLOW & MANTA — proving our market leadership in Eastern Europe."

Our Partners & Large Supermarket Clients:

We have established stable partnerships with globally renowned supermarket brands such as ALDI and COSTCO. These supermarket networks cover major markets like Europe and the United States, providing us with extensive product exposure.

ALDI and COSTCO conduct extremely rigorous supplier reviews, including factory production capacity, product quality, and logistics efficiency. Our successful partnerships fully demonstrate our comprehensive strengths.

Future Breakthrough Collaborations

1. AI Co-Creation — Making product development faster and smarter

With AI-powered design and market insights, we co-develop new products with clients to enhance efficiency and competitiveness, enhance the depth and breadth of cooperation

1. AI Co-Creation — Making product development faster and smarter

1. AI Co-Creation — Making product development faster and smarter

2. Exclusive Distribution

If your annual order quantity reaches XXX units of massage guns or your annual purchase amount exceeds USD XXX, we can offer you exclusive market distribution rights.

3. Marketing Support

- Promo materials & content
- Campaign & social media assistance
- Boost brand visibility & sales

Thank You!
