Company Profile

Guangzhou Helioson Car Care Co., Ltd. is a strategic partner of 4-X Company, a renowned enterprise based in the USA. Founded in 2008, the year of the Beijing Olympic Games, Helioson is located in the beautiful Conghua District of Guangzhou, covering nearly 10,000 square meters of modern facilities.

The company is equipped with advanced production and testing equipment from Switzerland and China, including professional emulsification systems and ultra-pure water treatment facilities. With an annual capacity of 45 million cans and a warehouse storage capacity of 2,500 tons, Helioson has established a solid foundation for sustainable development.

Technology is at the core of Helioson's growth, and innovation is its driving force. The company is committed to building a strong R&D center, maintaining strict quality standards, and fulfilling its social responsibilities.

Driven by specialized expertise, excellent service, and a trusted reputation, Helioson has become a leading player in the car care industry. Its four brands—GETSUN, 4X, ODELIGHT, and MARPA—now offer a complete range of more than 200 products, widely recognized in markets worldwide.

The eagle logo of the GETSUN brand was inspired by the childhood experience of the company's founder, Lewis Yang. When flying a kite as a boy, he once saw a lonely eagle in the sky, which left a deep impression on him. He later designed his own brand logo as a cartoon eagle flying toward the sun when he started his career. He hopes to promote his products to every corner in the world and make everyone who sees the GETSUN logo recall childhood friendship and pure memories.

The products have gained a high reputation in the field for their excellent quality and variety. They include the series of car lacquer surface treatment, chassis sound insulation and anti-rust, fuel system care, engine maintenance, air-conditioning purification and maintenance, water tank cleaning and maintenance, and interior cleaning and care, etc. Covering fifteen series with more than 200 items.

NANO CERAMIC COATING

INTERIORSHIELD NANO COATING KIT

Specification: (30ml+250ml)x12sets

Product Code: GT-1241

1. CLEANER _____ 250ml
2. COATING _____ 30ml

This product is specially designed to provide easy-clean and anti-stain protection for leather surfaces. After curing at room temperature, it forms a protective coating that maintains the natural leather texture and soft touch. The coating offers excellent wear resistance and easy-clean performance, allowing stains such as ballpoint ink, marker ink and other common dirt to be easily wiped off.

PAINTSHIELD CERAMIC COATING KIT

Specification: (30ml+75ml)x12sets

Product Code: GT-1230

1. DEGREASER _____ 75ml
2. TOP COAT _____ 30ml

This product is the latest-generation nano coating specially developed for protecting automotive surfaces. It adopts advanced silazane-based nano materials and hybrid technology, forming a strong, dense three-dimensional nano SiON protective structure on the car paint surface after application.

GUARDIAN WARRIORS NANO CERAMIC

Specification : (75ml × 2 +30ml) × 12sets

Product Code: GT-1228

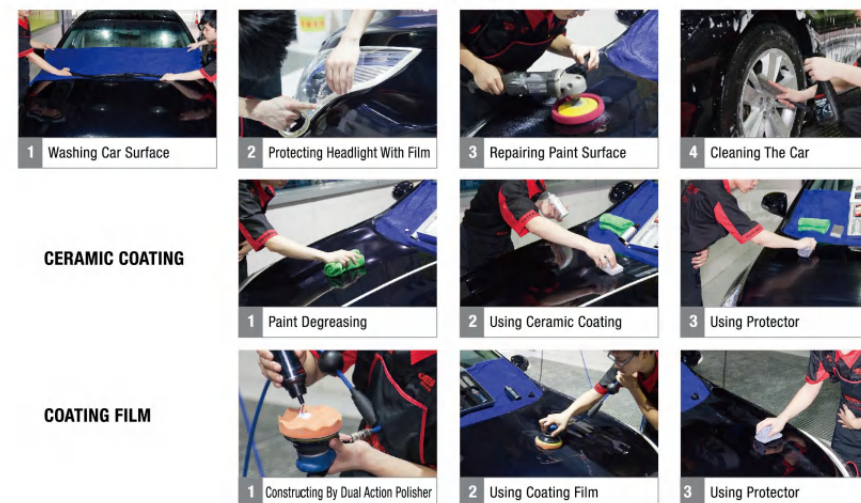

1. DEGREASING AGENT _____ 75ml
2. NANO CERAMIC _____ 30ml
3. PROTECTANT POLISH _____ 75ml

Prevent the paint from oxidation and aging. Improve the clarity of paint. Corrosion-resistant. Its high temperature resistance function. Anti-scratch. Easy to wash. Long lasting toughness and extensibility. Environmental materials. Excellent water-proofing.

STRONG WEATHER RESISTANCE

We are Polycarbonate TPU PPF, and is a flexible armor for your car, whether it is hot summer in the Middle East, or in the harsh winter, our ppf has shown strong weather resistance and would not deform, which provide long protection over your car, Compared with the polycaprolactone TPU that has good weather resistance, Our Polycarbonate TPU has shown stronger weather resistance.

01 Clean the surface of the car

02 Use GETSUN Multi-Purpose Cleaner to clean the stains

03 Use a scraper to remove dirt and rinse with water again.

04 Spray to the surface evenly with water at a ratio of 1 to 4.

05 Cover and fix by moving from left to right.

06 Use the scraper to push out the blisters under the protective film.

07 Repeatedly spray, use the scraper to scrape out the air bubbles.

08 Cut off the extra parts and wrap the edge.

09 Edging with baking gun to get better effect.

SPECIALLY DESIGNED TO COPE WITH EXTREME WEATHER CONDITIONS

Material Support

In order to help the stores to have a better decoration and improve their goods-display effect, we have designed some related materials.

It is significant for a store or even a brand to adopt good advertising materials, an excellent design can greatly improve customer's sense of trust to a store or a brand.

There should be a specific position for each material, placing the products reasonably can stand out the selling points and improve the effects of store-display, thus highlight your unique brand image.

It can greatly improve the effects of store-display and strengthen the additional value of brand, meanwhile, through manifesting its culture meaning Hi-tech to GETSUN brand, customers' purchasing desire shall be motivated, thus improve the turnover of your shop.

1 Special Store, Special Display Area

Display products series, to strengthen the brand image, normative and regular exhibiting, assist terminal shop to improve the grade, promoting sell.

Car maintenance service centers show

As the leading end of brand and backup force of market service, GETSUN professional car care center must be equipped with unique style, rigorous design, beautiful image, high technology and sophisticated equipment.

Examples shop in shop

Exquisite and particular shop-in-shop, not only enhance the level of our brand, but also reflect the brand's uniqueness, increase customers' loyalty.

Rest area

Area Show

Distinctive and characteristic brand region, impels to customers, active consumption accurately and effectively.

2 Flags, advertising hanging flags

Promote company image, to add more elements to the spot activity. Penetrate enterprise spirit, promote enterprise culture.

3 LED light box size: 60x60cm

4 Car Body Stickers

Delicate, playful objects can effectively transmit brand information, enhance brand loyalty.

For more models:

7 Bumbersoll

Unique tool in promotion spot. It not only has the sunshade and rainproof functions, but also can catch people's eye, promote brand image. Also, it can be used as promotion gift sent to various place (car wash room, outdoor parking area and etc.).

8 Advertising bag

Recyclable, beautiful and practical

9 Aroma tablet

Decorative items with a unique aroma that can remove odors and provide a cozy atmosphere. Easy to carry and multi-functional, widely used in daily life, bringing convenience and pleasure to people's life.

5 Outdoor Advertising

With a strong visual impact, leaves a deep impression to the passing vehicles and people.

6 Umbrella

Sun protection and easy to carry

10 Work Clothes, Advertisement Shirt

Use for daily working, promotion and exhibition, or present it to customers like a gift, can transmit and consolidate brand information..

Brand meaning

The eagle logo of the GETSUN brand was inspired by the childhood experience of the company's founder, Lewis Yang. When flying a kite as a boy, he once saw a lonely eagle in the sky, which left a deep impression on him. He later designed his own brand logo as a cartoon eagle flying toward the sun when he started his career. He hopes to promote his products to every corner in the world and make everyone who sees the GETSUN logo recall childhood friendship and pure memories.

Shine your quest!

The products have gained a high reputation in the field for their excellent quality and variety. They include the series of car lacquer surface treatment, chassis sound insulation and anti-rust, fuel system care, engine maintenance, air-conditioning purification and maintenance, water tank cleaning and maintenance, and interior cleaning and care, etc. Covering fifteen series with more than 200 items.

Company Profile

Guangzhou Helioson Car Care Co., Ltd. is a strategic partner of 4-X Company, a renowned enterprise based in the USA. Founded in 2008, the year of the Beijing Olympic Games, Helioson is located in the beautiful Conghua District of Guangzhou, covering nearly 10,000 square meters of modern facilities.

The company is equipped with advanced production and testing equipment from Switzerland and China, including professional emulsification systems and ultra-pure water treatment facilities. With an annual capacity of 45 million cans and a warehouse storage capacity of 2,500 tons, Helioson has established a solid foundation for sustainable development.

Technology is at the core of Helioson's growth, and innovation is its driving force. The company is committed to building a strong R&D center, maintaining strict quality standards, and fulfilling its social responsibilities.

Driven by specialized expertise, excellent service, and a trusted reputation, Helioson has become a leading player in the car care industry. Its four brands—GETSUN, 4X, ODELIGHT, and MARPA—now offer a complete range of more than 200 products, widely recognized in markets worldwide.
