

Professional GPS Manufacturer

(Since 2010)

HuiZhou Cantrack Technology Co., Limited belongs to Cantrack Group & established in 2010, focusing on the ODM/OEM GPS products related to vehicle, motorcycle, asset, pet and personal tracking and management. As one of the leading GPS manufacturers in China, we have 2000+ square meters production center with ISO9001 certification, 3 R&D teams and over 100 employees. Also most products have passed CE, FCC, RoHS, ANATEL certificates. Our well-equipped facilities and excellent quality control throughout all stages of production enable us to guarantee total customer satisfaction. We serve 10,000+ overseas clients covering North America, Latin America, Europe, Asia & Africa.

G900LM latest mini 4g vehicle GPS anti-jammer tracker with sos alarm, dual IP, IP lock & engine cut-off function.

Function

- Anti-Jammer**
- Remote cut power/fuel
- Dual IP / IP lock
- SOS** SOS alarm
- Voice listen remotely**
- Memory storage
- Real-time tracking
- External voltage detection**
- FOTA
- Vibration alarm
- Ignition on/off alarm
- Driving behavior analysis**

Dim.	73*30*13mm
Network	LTE / GSM / GPRS
4G LTE Frequency	LTE-FDD B1/B2/B3/B4/B5/B7/B8/B28/B66 GSM:850/900/1800/1900Mhz
Module & Chipset	SIMCom LTE Cat 1 Module A7670SA
Location accuracy	<5 meters CEP
Time To First Fix	Cold status <35s
	Hot status <1s
Working voltage	9-90V DC
Back up battery	55mAh / 3.7V Li-Polymer battery
Standby & Working Consumption	5mA~47mA
Memory storage	1000 data
Protocol type	GT06 Series Protocol

VSL100 GPS speed limiter realizes the effective control of the high speed, to avoid the potential safety risk caused by overspeed driving, and at the same time to ensure the free movement of accelerator pedal within the scope of speed limit. Moreover,it supports real-time tracking, alarms, and driving behavior monitoring.

Function

- Speed limitation
- Ignition detection
- Cut/Resume fuel
- Real-time tracking
- Tamper proof
- Speeding alarm
- Built-in alarm buzzer
- SOS SOS/Vibration alarm
- Fuel detection
- Voice listen remotely
- External printer
- FOTA FOTA

Dim.	118*75*29mm

P02L is next generation 4G GPS tracker combined global Intercom system. Specially designed for outdoor activities, P02L supports real-time tracking, phone calls, SOS, fall down alarm etc. Most importantly, it supports global walkie-talkie function without distance limitation!

Function

- Global intercom**
- Real-time tracking
- Phone Call**
- Step Counting
- Wake-up Alarm
- Fall down Alarm**
- Panic Button**
- Sleep Mode
- Remote OTA
- 6-Axis Gyro Sensor**
- Bluetooth**
- 1300mAh Battery

Dim.	68.7*43.9*20.2mm

P901 is the thinnest smart walkie-talkie with real-time GPS tracking function.It can be used in any place with GSM signal regardless of distance limitation.

Function

- Real-time tracking
- History trace playback
- One key push-to-talk**
- No distance limitation
- SOS alarm
- Dual-way phone calls
- Working punch-in & off
- Built-in 2000mAh battery
- Push-to-Talk use data
- Talk to multiple people at the same time**
- Broadcast speaker
- Set family numbers

G500LS is mini designed 4G OBD GPS tracker which can powered from car OBD port. Just plug-n-play, it will report accurate location realtimely to backend server.

Function

- **Compact size Plug and Play**
- Real-time tracking
- Movement alarm
- Speeding alarm
- Low battery alarm
- Geo-fence
- Scheduled timing report
- Power on report
- Angle update location
- Unplug alarm
- Mileage statistics
- Data storage in blind area & re-upload
