ABOUT US

• Our Establishment

Shenzhen YLW Technology Co., Ltd is a high-tech enterprise established in Shenzhen in 2005. After over a decade of rapid growth, it has evolved into a comprehensive company integrating product development, manufacturing, and branding. Our main products include all gaming-related items such as gaming consoles, game controllers, and accessories.

• Our Design

We have a first-class product ID design team, with designers from all over the world. Each product is independently designed and developed, and has **appearance patents**, **utility model patents**, etc. We have developed more than 1500 products in total. We firmly believe that enterprises have a future only through.

• Our R&D

We have 20 young and dynamic R&D team with **excellent structural design**, **electronic design**, and **mold design capabilities**. We can turn any preliminary imagination of customers into reality. We always do more for customers than they can imagine.

• Our Manufacturing

We have manufacturing bases covering an area of over **35000** square meters, located in Shenzhen and Jiangx, with over 500 employees. We have 50 injection molding machines, 10 SMT equipment, and 10 production assembly and packaging lines. With a monthly production capacity of over 200,000 units, it can undertake large OEM and ODM orders.

• Our Quality

From the beginning of its establishment, we adhered to the concept of "quality first, customer first, and continuous improvement", taking product quality as the vitality of the enterprise. From raw materials to finished products, we have undergone strict testing, and each production process is strive to be completed in the most reasonable steps, We are backed up by advanced equipment, strict quality control systems, and skilled employees.

• Our international Audit

We have several international factory audit: **ISO9001:2015** **BSCI** **ULAudit** **Intertek WCA** **EPA ID: 101561**

• Our Product Certification

CE, RoHS, FCC, REACH, EN71, LVD, UL, UN38.3, MSDS, CA65, MIC, C TICK, CPC, BQB, etc

MILE STONES

2005

Founded in Bao'an Shenzhen. gaming and accessories mould making and injection, 5 injection machine.

2010

One of the earliest Android phone gamepad exhibited in CES USA; Expand products category, video game, game wheel, sports gun,dance pad, etc..

2016

Get BSCI, To be Qualified Supplier for major retailers in USA, like Walmart, gamestop, etc.

2020

Become authorized manufacturer for licensed games and accessories; The products we manufacture rank first in sales and good reviews in Amazon; Expand the production scale and capacity, invest in new factories, It covers an area of 30,000 square meters.

2007

Start OEM producing for oversea customers for game controller.

2012

Factory pass ISO9001.

2019

Over hundreds of distributors Worldwide for our brand; Factory have SMT machines.

2021-Now

Committed to the R&D of virtual reality and meta-universe.

Our Vision: Continue to insist on product innovation and meet the needs of users, increase investment in R&D, strive to become the top 1 in the industry.

ABOUT US

OUR MISSION

Make contributions to human entertainment life, become a leader in the game entertainment accessories industry !

OUR CORE VALUES

- ▶ Customer first
- ▶ Unity and Cooperation
- ▶ Integrity and Civilization
- ▶ Continuous Innovation
- ▶ Adaptation to Change

OUR CORE COMPETITIVE ADVANTAGES

Connect with the market, closely study customer needs, innovate in thinking,system, and management.

ANS18

Open Source Game Console

- Screen: 8 Inch 1280*480
- System: Linux
- Input: DC 5v
- Battery: 5000MA
- Function:
 - (1) Support Game: FC, SFC, MD, GB, GBA, GBC, SMD, MAME, NEOGEO, PS1, CPS1, CPS2 etc
 - (2) Support download games in TF card
 - (3) Charging Way: Type-C charging cable
 - (4) It can be with game controller, two players playing
 - (5) Support vibration function
 - (6) Built- in high fidelity speaker, has earphone function

ANS19

Open Source Game Console

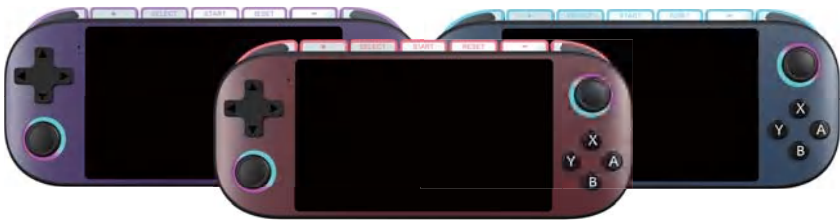

- Screen: 4.2 Inch 1280*960
- System: Linux
- Input: DC 5V.Battery: 3000MA
- Support Game: FC,SFC, MD, GB, GBA, GBC, SMD, MAME, NEOGEO, PSP, PS1, CPS1, CPS2,N64 etc
- Support download games in TF card
- Charging Way: Type-C charging cable
- It can be with game controller,two players playing
- Support vibration function
- Built- in high fidelity speaker, has earphone function

ANS20

Open Source Game Console

- Screen: 4.5Inch 480*854
- System: Linux
- Input: DC 5V
- Battery: 3000MA
- Function:
 - (1) Support Game: FC,SFC, MD, GB, GBA, GBC,SMD,MAME, NEOGEO, PS1, CPS1, CPS2 etc
 - (2) Support download games in TF card
 - (3) Charging Way: Type-C charging cable
 - (4) It can be with game controller,two players playing
 - (5) Support vibration function
 - (6) Built-in high fidelity speaker, has earphone function

ANS22

Android Game Console

- Architecture: Octa-core A75 x 2, up to 2.2G Hz A55 x 6, up to 1.8GHz
- Screen: 5.5 Inch
- Capacity: LPDDR4 x 1866MHz 6GB. Capacity 128GB Emmc
- Battery: 5000MA
- OS Version: Android 14
- Emulators: support for PS2,PS1,PSP,DC,NDS,N64 ect games
- Streaming computer games: Supports Moonlight streaming, Steam Link App Play PC Game Freely
- Android games: downloading games from the Google Store
- Support video, audio, Image function
- Support Wi-Fi, Bluetooth 5.0
- Charging: DC 5V-2A, 1* TYPE-C.
- Headset: Standard 3.5mm interface

ANS21

Open Source Game Console

- Screen: 4.2 Inch 1280*960
- System: Linux
- Input: DC 5V
- Battery: 3000MA
- Function:
 - (1) Support Game: FC,SFC,MD, GB, GBA, GBC, MAME, NEOGEO,PSP,PS1,CPS1,CPS2,N64, etc
 - (2) Support download games in TF card
 - (3) Charging Way: Type-C charging cable
 - (4) It can be with game controller,two players playing
 - (5) Support vibration function
 - (6) Built-in high fidelity speaker, has earphone function

ANS23

Open Source Game Console

- Screen: 4.0 Inch 720*720
- System: Linux
- Input: DC 5V
- Battery: 3000MA
- Function:
 - (1) Support Game: FC,SFC,MD, GB, GBA, GBC, MAME, NEOGEO,PSP,PS1,CPS1,CPS2,N64, etc
 - (2) Support download games in TF card
 - (3) Charging Way: Type-C charging cable
 - (4) It can be with game controller,two players playing
 - (5) Support vibration function
 - (6) Built-in high fidelity speaker, has earphone function

ANS25

Open Source Game Console

- Screen: 4.0 Inch 720*720
- System: Linux
- Input: DC 5V
- Battery: 3000MA
- Function:
 - (1) Support Game: FC,SFC,MD, GB, GBA, GBC, MAME, NEOGEO,PSP,PS1,CPS1,CPS2,N64, etc
 - (2) Support download games in TF card
 - (3) Charging Way: Type-C charging cable
 - (4) It can be with game controller,two players playing
 - (5) Support vibration function
 - (6) Built-in high fidelity speaker, has earphone function

ANS26

Open Source Game Console

- Screen: 3.5 Inch 640*480
- System: Linux
- Input: DC 5V
- Battery: 3000MA
- Function:
 - (1) Support Game: FC,SFC,MD, GB, GBA, GBC, MAME, NEOGEO,PSP,PS1,CPS1,CPS2,N64, etc
 - (2) Support download games in TF card
 - (3) Charging Way: Type-C charging cable
 - (4) It can be with game controller,two players playing
 - (5) Support vibration function
 - (6) Built-in high fidelity speaker, has earphone function
 - (7) Support the function of reading GBA original cassette tapes

ANS17

Open Source Game Console

- Screen: 3.5 Inch 640*480
- System: Linux
- Input: DC 5V
- Battery: 3000MA
- Function:
 - (1) Support Game: FC,SFC,MD, GB, GBA, GBC, MAME, NEOGEO,PSP,PS1,CPS1,CPS2,N64, etc
 - (2) Support download games in TF card
 - (3) Charging Way: Type-C charging cable
 - (4) It can be with game controller,two players playing
 - (5) Support vibration function
 - (6) Built-in high fidelity speaker, has earphone function

ANS13

Open Source Game Console

- Screen: 4 inch big screen
- Storage: 64GB/128GB TF card
- Support Game: PS1,CPS,FBA,NEOGEO,GBA,GBC,GB,SFC,FC,MAME, MD,GG,PCE,NGPC,SMS,WSC
- Support download games in TF card
- Support HDMI connect with TV
- It can be with game controller,two players playing
- Support vibration function
- Built-in high fidelity speaker, has earphone function

ANR13

Android system, downloadable games

ANS24

- Screen: 3.5 inch IPS
- Storage: 64GB/128GB TF card
- Support Game: PS1, CPS, FBA, NEOGEO, GBA, GBC, GB, SFC, FC, MAME, MD, GG, PCE, NGPC, SMS, WSC
- Support download games in TF card
- Support HDMI connect with TV
- It can be with game controller,two players playing
- Support vibration function
- Built-in high fidelity speaker, has earphone function

ANS01

Open Source Game Console

- Name: Open Source game console
- Specs:
 - (1) Display mode: LCD/3.5 inches
 - (2)Resolution :320*240
 - (3) Product size: 133*86*30mm;
 - (4) Input voltage/current: DC5V/1A;
 - (5) Normal working voltage/current: DC3.7V/200MA;
 - (6) Continuous use time: about 2H;
 - (7) Charging time: about 2 hours;
 - (8) Battery capacity: 2000mAh;
 - (9) Support multiple emulators: FC GB GBA GBC SMD SMC SFC PCE NGP CPS1 CPS2 CPS3 NEO GEO PGM FBA MAME ARCADE MD PS1
- Function:
 - (1)Optional 32G/64G card, 10000+inl
 - (2) Programs can be archived, key mapping, support the game to download to the T card
- Box Include: Console *1,USB cable *1,Manual*1

ANR11

Android system, downloadable games

ANS02

Open Source Game Console

- Name: Open Source game console
- Specs:
 - (1) Display mode: LCD/3.5 inches
