Quality Control Standard and After Sales Support

- Accepted Quality Limit (AQL) for Pre-Shipment Inspections that we can fulfill (PSI):
Critical: not allowed,
Major: 1.0,
Minor: 2.5.
- Ranged and produced product are field tested. A golden sample is always supplied to our customers.
- SIMO's staff ensuring the quality by implementing check points during mass production.
- Online inspection can be arranged at any time.
- Using high profile and qualified sub-suppliers for all the components.
- Safety reports and certificates are mostly made by the following accredited labs SGS, TUV, DEKRA, Intertek and BV.
- SIMO implemented an updated checklist for our in-house PSI's tailored to each product.
- After Sales Support: handling claims, feedbacks and returns if there is any.
